

Asset managers focusing on the UK and Irish fund markets now have access to comprehensive fee and expense information covering the UK and Irish domiciled fund universe through Simfund, the leading business intelligence platform for the global asset management industry. With Simfund, asset managers can utilize this fee and expense data alongside the breadth of Simfund's industry-leading financial database. It includes more than 120,000 financial products in over 40 markets, and over 2,000 data items from proprietary and leading third-party data sets, enabling customized benchmarking and analysis in one integrated platform.

Comprehensive Fee and Expense Data Covering The UK and Irish Domiciled Fund Universe

- Comprehensive coverage of fee and expense data for UK and Irish domiciled funds with over 100 data points covered
- Sourced directly from annual reports and other regulatory documents
- Captured at the share class level and updated annually
- Consolidated fee data and detailed operating fee breakdowns
- Easy creation of custom peer group universes for benchmarking and comparative analysis (e.g., across IA sectors, Morningstar categories, Lipper classifications, specialty flags, active/passive, ESG, and performance data)

*Refer to Data Guide for full list of fees and expenses, definitions and methodology.

Actionable Insights Across Multiple Use Cases Using The Simfund Platform

Analyze relative fees, expenses, and pricing strategies, and evaluate impact on fund flows, AUM, competitive position and market share through customized analytics and easy-to-use flexible ad hoc reporting and dashboards.

STREAMLINE ASSESSMENT OF VALUE (AOV) REPORTING

1. Quality of Service

- ▶ 2. Performance
- ▶ 3. Costs
- ▶ 4. Economies of Scale
- ▶ 5. Comparable Market Rates
- ▶ 6. Comparable Services
- ▶ 7. Share Classes

- The Simfund integrated data sets provide data inputs to most of the criteria that comprise the Annual Assessment of Value and that support the UK/FCA's Consumer Duty Regulation.
- Eliminate spreadsheets and need to integrate data from multiple sources.

PEER/COMPETITOR BENCHMARKING

- Benchmark fees relative to peers/competitors across funds, asset classes, performance (Morningstar), risk, and ESG metrics categories
- Set pricing strategy for new UK and Irish domiciled fund launches
- Create custom peer universes for benchmarking within fee ranges

PRODUCT STRATEGY

- Evaluate AUM, fund flows, performance across asset classes including ESG and SFDR classifications alongside other dimensions
- Track newly launched funds across multiple data elements and domiciles

PROFITABILITY / OPERATING COST BENCHMARKING

- Benchmarking outsourced fees (e.g., administrative, custodian, transfer agency, audit)
- Compare fund cost structure to peers
- Identify opportunities for fee/cost reduction

UK IA Sector	Share Class Name	ACD Fee %	Avg ACD Fee %	Difference	ESG Perf Score	Total Assets GBP MM	Net New Flows GBP MM	YTD Total Return %
Corporate Bond	Share Class A	0.32	0.24	0.08	53.21	3,186	-966.7	-4.09
Corporate Bond	Share Class B	0.35	0.24	0.11	51.84	2,542	222.4	-3.22
Corporate Bond	Share Class C	1.05	0.24	0.91	50.08	2,040	-402.6	-3.63
Corporate Bond	Share Class D	0.22	0.24	-0.02	52.24	1,254	113.5	-3.12

COMPETITIVE ANALYSIS

- Review new and existing funds across managers and analyze market share
- Identify which funds are gaining or losing assets and cross-border fund flow trends

UK IA Sector	Manager	Share Class	ACD Fee	Mgt Fee	Admin Fee	Subsidy	OCF	Avg Mgt Fee	Avg Subsidy	Total Assets GBP MM
Invest Grade Bond	Manager A	share class	1.25	1.2	0.005	-0.01	2.455	0.8	-0.01	4,900
Corporate Bond	Manager B	share class	1	0.85	0.007	-0.01	1.857	0.77	-0.01	5,200
Equity Income	Manager C	share class	1.1	0.9	0.005	-0.01	2.005	1	-0.01	7,568
